

Canberra Disinfectants Effective Against Coronavirus

April 1, 2020

Husky & JAWS Professional Disinfectants Effective Against 2019 Novel Coronavirus (2019-nCoV)

The list of disinfectant products below meets the EPA Emerging Pathogen Policy. Each disinfectant is listed by name, the EPA registration number and the corresponding non-enveloped virus(es):

Husky 319 Everyday Non-Acid E/N/A Disinfectant Cleaner (EPA Registration #6836-152) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Husky 319 Everyday Non-Acid E/N/A Disinfectant Cleaner can be used against SARS-CoV-2 when used in accordance with the directions for use against Norovirus.

Husky 800 Neutral Disinfectant Cleaner (EPA Registration #47371-131) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Husky 800 Neutral Disinfectant Cleaner can be used against SARS-CoV-2 when used in accordance with the directions for use against Adenovirus.

Husky 802 High Fragrance Detergent Disinfectant (EPA Registration #10324-167) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Husky 802 High Fragrance Detergent Disinfectant can be used against SARS-CoV-2 when used in accordance with the directions for use against Human Coronavirus.

Husky 803 S/V Disinfectant (EPA Registration #6836-70) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Husky 803 S/V Disinfectant can be used against SARS-CoV-2 when used in accordance with the directions for use against Norovirus.

Husky 805 Neutral Disinfectant 128 (EPA Registration #47371-130) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Husky 805 Neutral Disinfectant 128 can be used against SARS-CoV-2 when used in accordance with the directions for use against Adenovirus.

Husky 806 Neutral Disinfectant 256 (EPA Registration #47371-129) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Husky 806 Neutral Disinfectant 256 can be used against SARS-CoV-2 when used in accordance with the directions for use against Adenovirus.

Husky 814 Q/T Tuberculocidal Spray Disinfectant Cleaner (EPA Registration #1839-83) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Husky 814 Q/T Tuberculocidal Spray Disinfectant Cleaner can be used against SARS-CoV-2 when used in accordance with the directions for use against Canine Parvovirus.

Husky 815 HCD Disinfectant (EPA Registration #10324-214) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Husky 815 HCD Disinfectant can be used against SARS-CoV-2 when used in accordance with the directions for use against Human Coronavirus.

Husky 820 Hospital Disinfectant Concentrate (EPA Registration #1839-95) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Husky 820 Hospital Disinfectant Concentrate can be used against SARS-CoV-2 when used in accordance with the directions for use against Norovirus.

Husky 824 Quick Care Disinfectant (EPA Registration #6836-348) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Husky 824 Quick Care Disinfectant can be used against SARS-CoV-2 when used in accordance with the directions for use against Feline calicivirus; Enterovirus.

Husky 890 Veterinary Disinfectant Cleaner (EPA Registration #1839-100) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Husky 890 Veterinary Disinfectant Cleaner can be used against SARS-CoV-2 when used in accordance with the directions for use against Feline calicivirus; norovirus.

Husky 891 Arena Disinfectant (EPA Registration #1839-166) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Husky 891 Arena Disinfectant can be used against SARS-CoV-2 when used in accordance with the directions for use against Rotavirus.

Husky 892 Arena Plus Disinfectant (EPA Registration #6836-365) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, Husky 892 Arena Plus Disinfectant can be used against SARS-CoV-2 when used in accordance with the directions for use against Norovirus.

JAWS 3805 Disinfectant Cleaner (EPA Registration #1839-166) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, JAWS 3805 Disinfectant Cleaner can be used against SARS-CoV-2 when used in accordance with the directions for use against Rotavirus.

JAWS 9080 Disinfectant Cleaner (EPA Registration #47371-129) has demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, non-porous surfaces. Therefore, JAWS 9080 Disinfectant Cleaner can be used against SARS-CoV-2 when used in accordance with the directions for use against Adenovirus.
